Short bio:

GEEZ (Gregorgus Geez) is a Cologne-based DJ, vocalist, and producer built for high-energy dance floors. His mission is simple: make people dance and feel connected through the joy of music. With a performer's instinct for timing and a commanding presence, he delivers sets that hold the room — groove, tension, lift, and release.

Extended Bio

Gregorgus Geez – known on stage simply as GEEZ – is a high-energy DJ, vocalist, and producer whose mission is to make people dance and feel connected through the joy of music. Born in Suriname and raised in the Netherlands, his relationship with music started early, performing at family events and childhood playback shows. That foundation evolved into a professional stage life, moving from international go-go dancer to music artist, with rhythm and presence at the center of everything.

In 2014, he met DJ/producer Micky Friedmann and soon after recorded vocals for two circuit anthems: “**The Message**” (with Sagi Kariv) and “**Let the Beat.**” With 24+ original releases on labels including **Guareber Recordings, Queen House Music, ePride Digital, and PUMP Records**, he stepped fully into the spotlight as a DJ/producer – driven by a dancer’s instinct for timing and a disciplined, floor-first approach to every set.
